

GARY CHIUSANO
Republican
Clean Elections Candidate

In addition to my 30 plus years in domestic and international business, I also have experience as a Sussex County Freeholder, local Mayor, and an elected member of my local school board. I helped start the Senior Quality of Life Foundation.

New Jersey is taxed too much.

The Oroho-McHose-Chiusano Team will hold the line on taxes through legislation that caps government spending at the rate of inflation.

We will conduct a review of all state spending and propose ways to weed out inefficient and outdated programs, so we can reduce spending and pass those savings along to taxpayers as property tax relief.

We will propose legislation to create a fair school funding system -- to stop shortchanging children from rural and suburban school districts. This will result in an increased state allocation for our children and reduce the amount needed from local property taxes.

Successful and growing businesses equal more jobs and more opportunities for our children and grandchildren. We will work to create a more business-friendly environment in New Jersey -- to reduce unnecessary regulation and make the system less confusing.

We support judicial reform and tough new ethical standards for elected officials.

We support strong measures to deal with those who break the law -- and tough mandatory sentences for violent criminals.

We oppose government taking private property without fair compensation.

Help us bring back the promise of New Jersey.

ALISON LITTELL McHOSE
Republican
Clean Elections Candidate

The Democrats tried to raise taxes 94 times. I voted against every Democrat tax increase while I've been in the legislature.

As the top Republican woman on the Assembly Budget Committee, I'm an advocate for taxpayers. I've been successful in seeing 9 of my bills signed into law – protecting children from abuse, crime victims' rights, and helping veterans.

New Jersey is taxed too much.

STEVE OROHO
Republican
Clean Elections Candidate

As a Freeholder, I brought new fiscal disciplines to Sussex County's budgetary process that resulted in savings to taxpayers.

Community service is important to me. I've been a volunteer firefighter, high school coach, and a local councilman. As a former Senior Financial Officer of a major corporation, and a small business owner, I bring a business perspective to government.

EDWIN C. SELBY
Democrat
Clean Elections Candidate

The government belongs to “We the people” as noted in the U.S. Constitution. It is not the sole province of elected officials, their contributors, friends, and ideological fellow travelers. The problems facing New Jersey and the people of the 24th Legislative District will not be solved as long as corporations, lobbyists and special interest groups control the political process. They will not be solved if the only people able to run for public office are those with very deep pockets. As your Clean Elections Senator, I will be obligated to you, the taxpayer, as I fight for more education dollars in Northwestern New Jersey, a permanent control on property taxes, local jobs that pay a living-wage, land preservation, and compensation for our residents who make everyone’s drinking water safe. We must open government to include a broader range of ideas and solutions. We must return to the democratic ideal that says that anyone, no matter his or her economic status, can seek to serve the public through high elected office. The Fair and Clean Elections Project is a vital tool in removing the corrupting influence of “big-money” and special interests from government while returning control of the political process to the taxpayers. As Senator, I will work to adopt Clean Elections statewide. If we are going to increase participation of citizens in government, then we must provide a government that people can trust and afford.

PAT WALSH
Democrat
Clean Elections Candidate

New Jersey's high property taxes and reputation for corruption are the legacy of elected officials obligated to big special interests. They just don't help hard-working citizens like you. That is why I have chosen to run as a Clean Elections candidate, meaning I cannot by law accept a single dollar from lobbyists and special interests. As a Clean Elections Assemblyman, I am obligated to you - the taxpayer - and only you.

TONI ZIMMER
Democrat
Clean Elections Candidate

I am asking for your vote today for two reasons. First, as a member of the governing party, I will be able to give our district a seat at the table of power, and work for you inside the system to make Trenton pay attention to our district. You and I can work together to:

- **Take control of—and reduce—the runaway property taxes placed on young and middle class families and Seniors living in our district.**
- **Put an end to the skyrocketing costs of health insurance so taxpayers and their families can afford to get the care they deserve.**
- **Stop rampant development and sprawl to relieve the crushing burden on our towns, improve our quality of life, and preserve the environment for generations to come.**
- **Make the State pay for what it wants: provide fair and timely financial compensation to those property owners affected by the Highlands Act.**

Second, I want your vote, like my own, to count for something once you leave this booth. Clean Elections, by breaking the hold of wealthy special interests and their IOUs on your representatives, is designed to make that happen. It is intended to make your voice the most powerful voice in our government again. I have embraced and practiced this principle from the first day of my campaign. I will continue to do so in Trenton, where my job will be to represent you, and my only obligation will be to speak and work for you.
